

VISIBLE

SIMPLE

EFFECTIVE

Our radar speed display RAD 52 is dedicated to reduce speed. Preferably installed as a prevention in low traffic areas, it displays the driver's speed in real time at a 1km range. Ideally placed near schools, hospitals, near bike path crossings or any establishment with people at risk.

MADE IN
CANADA

Easy setup
& installation

Encourages drivers
to lower their speed

At a cost that defies
the competition

High visibility
