

Reliability. Security. **Agility.**

MADE IN CANADA 

The **RMS12** signaling trailer is a rapid deployment system specially designed for construction sites.

RELIABLE: Control can be done on site by a nearby or distant signalman using a programmable remote control.

SAFE: This trailer improves the visibility of the signalman thanks to its FLEX PRO lightS and its motorized reflective barricade.

AUTONOMOUS: Equipped with a solar system, it offers a 7 days autonomy without solar supply.

-  HIGH VISIBILITY ENCOURAGES DRIVERS TO SLOW DOWN
-  SOLAR POWERED UP TO 7 DAYS W/O SOLAR SUPPLY
-  MAINTAINS A SAFE TRAFFIC FLOW
-  BARRICADE MANUALLY OPERATED
-  ERGONOMIC AND COMPACT
-  ULTRA-BRIGHT LED LIGHTS

AGILE TRAILER

Developed for its versatility and agility, lighter with smaller wheels this trailer is fully manual and offers multiple interchangeable options. It was designed to transform from a radar display to a barricade, temporary traffic lights to a sign, or flagman system, the perforated mast allows for manual height adjustments.

TECHNICAL INFORMATION :

MECHANICAL FEATURES

- Lights mounted on a telescopic mast lifted manually.
- Safety orange paint on structural steel members.
- 2 " ball attachment
- 2000 lb axle (908kg) and ST175 / 80D13 tires.
- 2 stabilizing legs.

ELECTRICAL FEATURES

- 8 "(200mm) LED traffic lights, flashing red and yellow
- Automated barricade lowers on red light.
- Barricade manually operated by wired switch
- Power supply on 4-way flat connector, 12VDC 0.650A typ, 1.650A max
- Controller power supply on rechargeable Li-ion battery

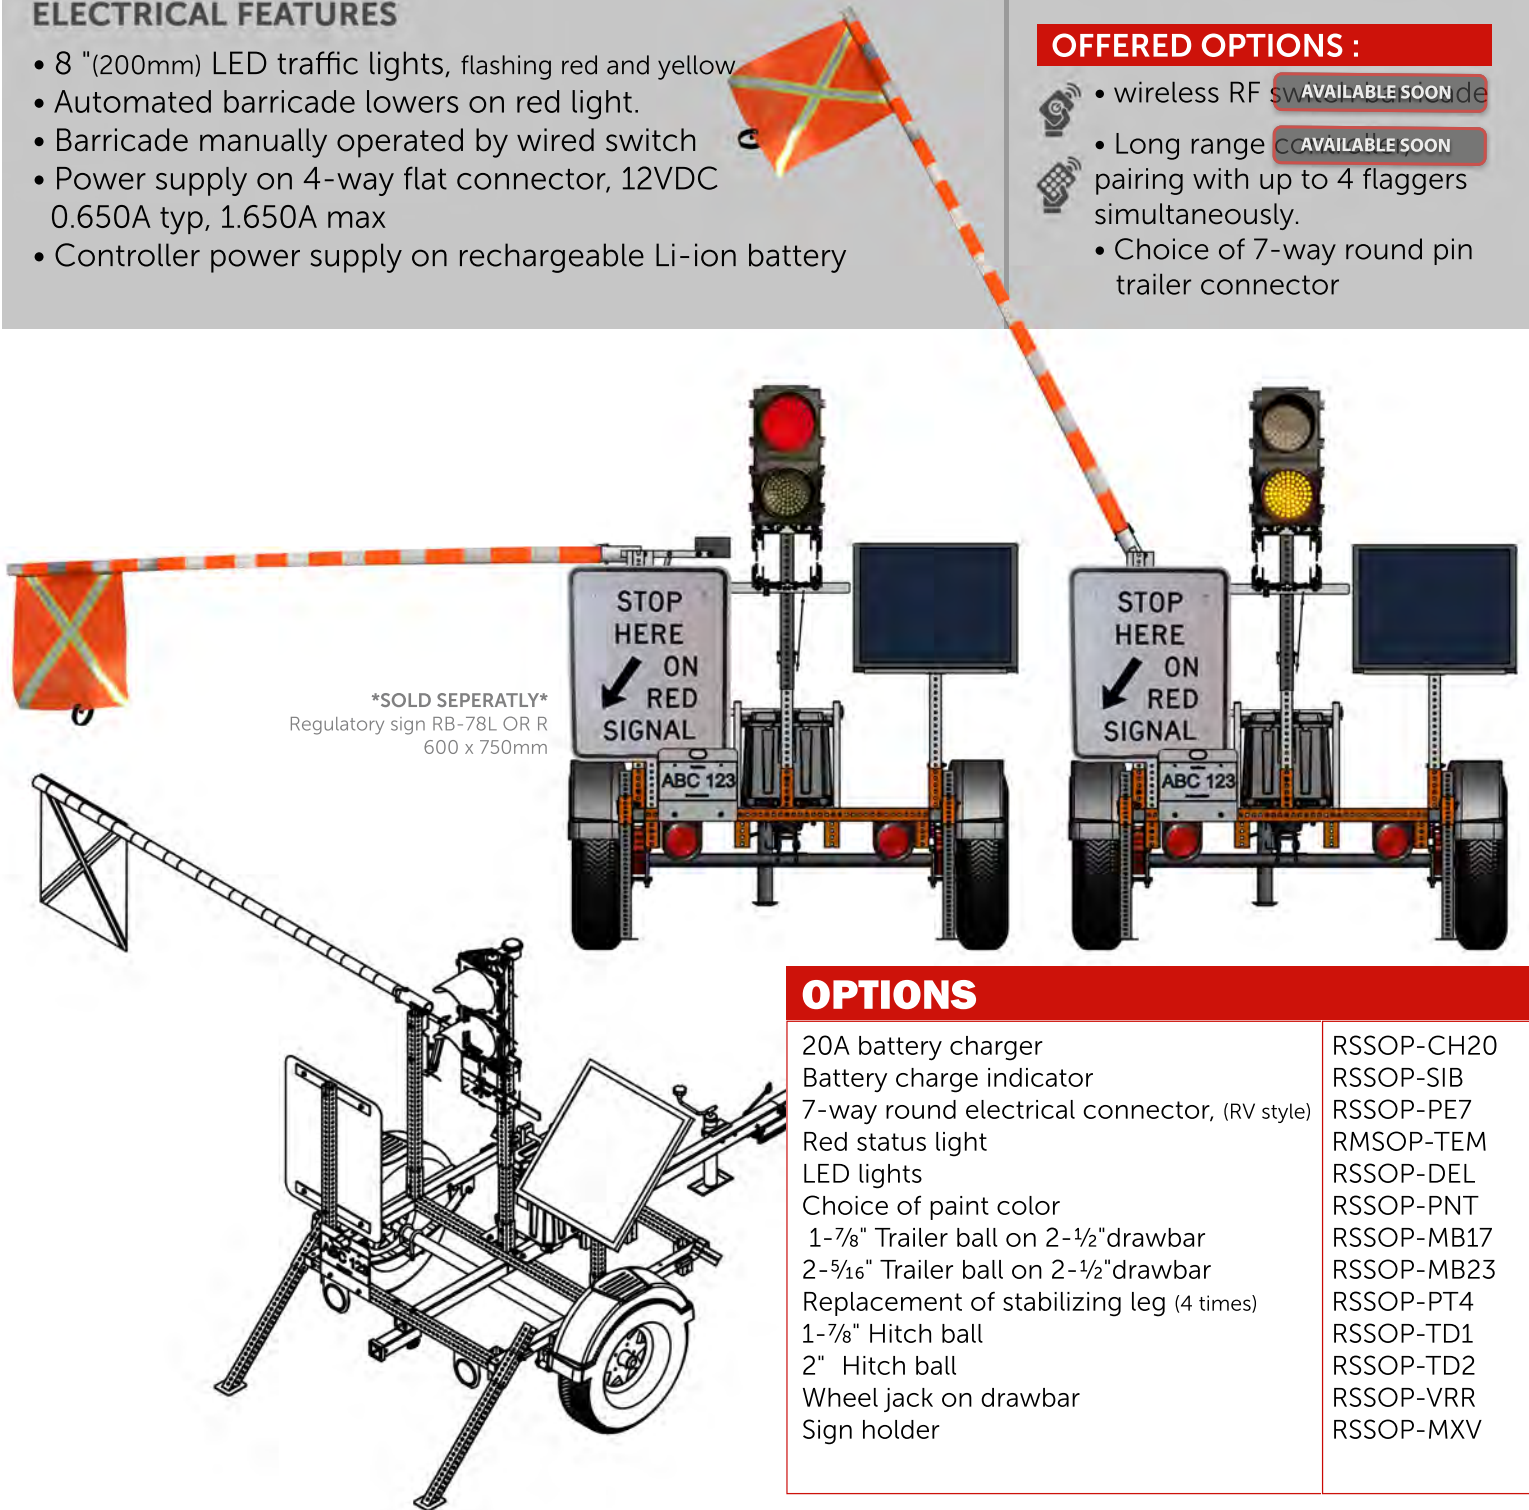

DIMENSIONS:

Height deployed: 94 "(2390mm)
 Transport height: 72 "(1830mm)
 Width: 65 "(1650mm)
 Length: 112 "(2844mm)

Weight: 680lb (310kg)

OFFERED OPTIONS :

- wireless RF AVAILABLE SOON de
- Long range AVAILABLE SOON pairing with up to 4 flaggers simultaneously.
- Choice of 7-way round pin trailer connector

OPTIONS

- 20A battery charger
- Battery charge indicator
- 7-way round electrical connector, (RV style)
- Red status light
- LED lights
- Choice of paint color
- 1-7/8" Trailer ball on 2-1/2" drawbar
- 2-5/16" Trailer ball on 2-1/2" drawbar
- Replacement of stabilizing leg (4 times)
- 1-7/8" Hitch ball
- 2" Hitch ball
- Wheel jack on drawbar
- Sign holder
